PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building web and mobile applications with React, Next.js, Node.js, and React Native. I work across the full stack — designing APIs and databases, building user interfaces, and handling authentication, payments, and deployment. Most of my projects are live and used by real users, and I am comfortable taking a feature from initial idea through to launch.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native (Expo), TypeScript, JavaScript, Tailwind CSS, NativeWind

Backend: Node.js, NestJS, Express.js, REST API design, JWT, OAuth 2.0, Stripe Connect

Database: PostgreSQL, MongoDB, Firebase, Prisma, Drizzle ORM, Neon

Tools & Cloud: AWS S3, Firebase FCM, Git, GitHub, Figma, Postman, MVC architecture

PROFESSIONAL EXPERIENCE

React Native Developer — Sparktech Agency

2025 – Present

Mohakhali, Dhaka

- Build mobile apps for Android and iOS using React Native and Expo for client projects.
- Connect the apps to REST APIs and improve slow screens so they load and respond faster.
- Work with the team to deliver features on schedule and keep the codebase clean and maintainable.

Freelance Full-Stack Developer

2023 – 2025

Remote — Web & Mobile Projects

- Built and launched complete web applications independently for clients and community organizations.
- Handled everything from the database and APIs to the admin panel, login, and front-end pages.
- Gathered requirements from clients, built the solution, tested it, and deployed it to production.

Instructor — Advance Engineering Institute

2022 – 2023

Feni District, Bangladesh

- Taught programming fundamentals and web development to students through hands-on projects.
- Guided students in building real websites and understanding practical coding workflows.

PROJECTS

JobsiteX — On-Demand Trucking & Logistics Platform

Full-Stack

React Native, NestJS, PostgreSQL, Stripe Connect, AWS S3, Firebase FCM, Google OAuth

- An Uber-style app for booking trucks, where customers find verified drivers on a live map and track them in real time.
- Built the job flow that moves a delivery through 9 stages, with the driver updating the status and the customer following along.
- Developed the fare calculation that prices each job by distance, time, truck type, load size, and axle count.
- Integrated Stripe Connect for payments and driver payouts, along with document verification, S3 file uploads, and push notifications.

Goldmines Picture — Movie Discovery Platform

goldminespicture.xyz

Next.js, MongoDB, JavaScript

- A movie site where users browse films by date, view actor profiles, and admins manage content from a dashboard.
- Optimized the MongoDB queries and data fetching so pages load faster.

Feni Blood Line — Non-Profit Blood Management Platform

fenibloodline.com

React.js, Node.js, MongoDB

- A free tool for the Feni district that helps people find blood donors when they need them.
- Kept it fast and easy to use, with donor details handled securely and availability shown in real time.

EDUCATION

BSc in Computer Science — Northern University Bangladesh

2025 – Present

Diploma in Computer Science — Institute of Computer Science & Technology (ICST)

2019 – 2023

Web Development Programme — Programming Hero

2022

ADDITIONAL INFORMATION

Languages: Bangla (Native), English (Professional)

Target Roles: Full-Stack Developer, MERN Stack Developer, React Native Developer, Frontend Developer

Work Style: Remote, hybrid, or on-site — startup, agency, and product teams
